DETAILED ACTION

In view of the terminal disclaimer, claims 8 and 10-26 are allowed.

The following is an examiner's statement of reasons for allowance:

With regards to claim 8, the prior art of record fails to show or suggest a method as presently claimed having the combination of the reticle having more than one periodic feature, using rows of at least one of vertical, horizontal, and tilted lines as a periodic feature, and detecting an interference pattern in the image of the reticle substantially simultaneously at multiple locations and in a direction coaxial with the optical axis.

With regards to claim 10, the prior art of record fails to show or to suggest a method comprising of all the steps as presently claimed wherein the object plane extends over a range of depths through the object space and the periodic patterns are imaged onto an image volume. Claims 11-25 are allowable by virtue of their dependence on claim 10.

With regards to claim 26, the prior art of record fails to show or to suggest an apparatus comprising of all the elements as presently claimed wherein image of a reticle having more than one periodic feature thereon is projected within a volume of image space and the interference patterns in the image at different locations comprising different depths of focus within the volume of image space is detected.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
